Experience

75way Technologies

Jun 2023 - Feb 2026

Software Development Executive

Enterprise Financial Solutions Platform

- Optimized high-volume microservices, reducing CPU overhead by 3% through performance-critical algorithm enhancements.
- Reduced manual processing time 40-50% by implementing an automated job scheduler.
- Improved throughput of event-driven services by resolving resource contention bottlenecks.

Sports Facility Booking & Matchmaking Platform

- Increased successful team matches by 95% through weighted scoring algorithm implementation.
- Developed a player ranking system using performance metrics and game history analytics.
- Automated payment splitting for group bookings and streamlined the checkout process.
- Optimized payment processing, cutting failures by 50% and improving latency by ~1s.
- Led Ionic-to-Flutter migration, achieving 55-70% faster rendering speeds.
- Reduced backend load by 40% via API call batching, caching and state management optimization, improving response times by 1.5x.

Shopify Order Management Automation System

- Built scalable backend system with real-time inventory checks, fulfillment workflows, and automated split-shipment logic.
- Achieved 99% third-party webhook delivery reliability during peak with retry mechanisms.
- Automated 90% of manual processes, reducing fulfillment errors to <1%.
- Optimized inventory, cutting excess stock costs by 25% through data-driven adjustments.
- Developed BI dashboard for order analytics, expense tracking, and inventory turnover rates

Latest Personal Project

Nlite

[GitHub](#)

React v19, vite, Typescript, rolldown

- Experimenting with React 19's new APIs to build a modern meta-framework architecture
- Working on core features: SSG, SSR with streaming, pre-rendering with RSC support
- Designing file-based routing system for simplified page management and api routes

Education

Bachelor of Science (B.Sc) in Physics

2019 - 2022

Calicut University

- Relevant Courseworks: Quantum Mechanics, Electrodynamics, Statistical Physics, Computational Physics
